MEMORANDUM FOR: Executive Director

FROM:

Director, Office of External Affairs

STAT

SUBJECT: Proposal to Brief College Professors Who
Conduct Courses on Intelligence

1. Action Requested: Approve in principle an Agency-sponsored unclassified seminar on intelligence conducted for college professors who teach courses on intelligence.

2. Background: This proposal has evolved from discussions among DO's CT Recruitment Task Force, Public Affairs, and the Coordinator for Academic Affairs. It is supported by the Center for the Study of Intelligence.

The proposed scenario is to invite the 30 or 40 professors of intelligence to come to Headquarters at Agency expense on a specified day in the Fall for a round of formal briefings by and discussions with Agency officers. The purpose of the session would be to enhance the reception of CT recruiters on-campus in the future, to clarify the known misperceptions of teaching professors, and to enhance the prestige and authenticity of such professors by giving them first-hand exposure to intelligence professionals and the work they do.

If you approve, we propose an early planning meeting of representatives from the offices mentioned above to outline an appropriate program, identify briefers, define supporting roles, and determine invitees.

3. Recommendation: Approve this activity in principle to enable planning to proceed, which will be subject to your final review and approval.
